Ehubo2 - The latest in-vehicle technology

The EROAD Ehubo2 offers multiple easy-to-use applications on a single device, delivering better safety outcomes for your business and improving productivity and profitability.

EROAD's Ehubo2 device bridges the gap between after-the-event management reporting and real-time behind-the-wheel influence on driver behaviour.

The Ehubo2 gives you the best available solution for your business today – and a future-proof platform to continue delivering innovative driver and vehicle safety and performance on an on-going basis.

Multiple applications on a single platform will revolutionise safety compliance for your business.

- **Drive Buddy** provides timely driver feedback with audio and visual alerts

- Interfaces with EROAD web application, **Depot**, to provide two-way messaging, fuel management and driver behaviour reporting

- **Driver Login** on Ehubo2 gives enhanced visibility into not only vehicle activity, but also individual driving behaviour

- **Posted Speed** delivers real-time driver coaching, by displaying speed limit data on highways and main metro routes and comparing this to the actual speed being driven. This empowers drivers to make better choices on the road.

  - Reduce speeding events
  - Reduce fuel usage
  - Create a safety focused culture

KEY BENEFITS

Advanced driver analytics Interrogate the data behind the EROAD Leaderboard Driver Insights report to help coach drivers towards better driving and safer behaviour

Benchmarking You can benchmark your drivers against their industry peers and compare them to the EROAD population of 60,000+ vehicles

Real-time in-cab driver behaviour coaching You can monitor live vehicle and driver behaviour and deliver coaching and scoring to a driver directly in-cab – in real-time

Driver Login for improved safety A flexible platform to ensure you can track all of your employees, including temporary drivers, with no key fobs, no fuss. You can monitor driving time and location of drivers in real time, using the Depot web application

KEY FEATURES

❯ Drive Buddy provides real-time feedback to drivers

❯ EROAD Messaging provides two-way messaging between Depot and drivers

❯ Captures fuel fills on screen to track fuel efficiency

❯ Designed to last the lifetime of vehicle and meets the highest automotive standards

❯ Three digital inputs for reporting on auxiliary connection

❯ Secure, tamper-proof electronic distance recorder that meets international independent security certifications

❯ Simple and secure on-screen Driver Login system that requires no additional hardware or fobs

❯ High-resolution vehicle tracking with multiple vehicle location speed snapshots per minute

❯ Driver behaviour reporting including acceleration, harsh braking, cornering and idling

One end-to-end solution

EROAD offers a complete suite of user-friendly compliance, regulatory and telematics solutions, including driver safety tools and reports, vehicle maintenance, and fuel and fleet utilisation reporting. Security and accuracy of data is of primary concern in EROAD's independently tested platform, you can rely on these to provide credible insight and competitive advantage.
