

## EROAD Driver Login

EROAD Driver Login uses a unique PIN system to identify who's behind the wheel, giving you better visibility of your fleet to support health and safety, boost driver performance and simplify job management.

### Enable driver-centric reporting

Promoting safe driving behaviour is difficult when you don't know who's behind the wheel. Driver accountability has been proven to reduce speeding by at least 50%\*, providing opportunities for you to reward great driving and foster positive competition.

EROAD Driver Login's unique PIN system lets drivers identify themselves before they turn on the ignition – it's a quick, intuitive and secure way to identify the driver and incentivise good driving.

Correct driver identification enhances visibility of driver location and driving times, and unlocks valuable insights on driver performance. Easy-to-understand, visual reports and actionable feedback can help you boost driver performance and improve health and safety outcomes for your fleet.

With EROAD, you know you have the safest drivers on the road.

\* Based on an EROAD study undertaken in November 2016 analysing the effect of Driver Login on driver speeding

### KEY BENEFITS

**Encourage accountability** Simple, secure login process identifying individual driver enables driver-centric reporting in Depot

**Protect your reputation** Enhanced visibility of what's going on in your fleet, simplifying health and safety compliance

**Train and retain drivers** Easy-to-understand, visual reports and actionable feedback can help you boost driving performance and support driver retention

**Simplify job management** Real-time view of which driver is logged in and their location enables dispatch to quickly locate a driver, enabling easier job management and better customer service

**KEY FEATURES**

- › Simple PIN identification of driver on in-cab Ehubo - no additional hardware required
- › Real-time view of which drivers are logged in, which vehicle they're in, and their location
- › Driver behaviour activity reporting on EROAD Leaderboard, Over Speed Dashboard, Driver Safety Report, and Idle report for specific feedback and training
- › Visibility of which driver was driving the vehicle on a job site in the Geofence Activity Dashboard
- › Easy bulk upload of drivers from a CSV file
- › Driver Login Monitor reports on driver login time, providing a quick view of fleet and driver adherence to your driver login policy

**One end-to-end solution**

EROAD offers a complete suite of user-friendly compliance, regulatory and telematics solutions, including driver safety tools and reports, vehicle maintenance, and fuel and fleet utilisation reporting. Security and accuracy of data is of primary concern in EROAD's independently tested platform, you can rely on these to provide credible insight and competitive advantage.
