

# EROAD Australia Pricing Plans

**EROAD**

Our monthly subscription plans are designed to help make operating your vehicle fleet easier and more profitable. We have a range of plans designed to cover your light and heavy vehicles, as well as both powered and non-powered assets.

With Ehubo2 hardware and associated plans you aren't restricted to a black box under the dash and can add on additional services as your business changes.

Our rental option includes standard installation as well as hardware and warranty for the term, letting you get started faster without a large up-front cost.

Plans include an unlimited number of users for our web-based application, Depot. You'll also receive the best service from our onboarding & training team, as well as dedicated support personnel. Our expert team can give you a demonstration of the EROAD system and help you choose the right plan for your business.

*NOTE: Where prices are not indicated, they can be quoted upon request. All prices are correct at February 2020 and are subject to change without notice. Excludes GST. Prices are per month per vehicle based on a minimum term.*
